CONTENTS OF VOLUME XX.

NUMBER I.

	PAGE
1. A Case of Extensive Caries and Cholesteatoma of the Mastoid Process without Local Signs of Inflammation. Death from Thrombosis of the Lateral Sinus and Meningitis. By Dr. Harry Friedenwald, of Baltimore. (With two drawings.) . . .	1
2. A Case of Living Larvæ in the Ear. By W. E. Baxter, M.D., Bangor, Me.	11
3. Operative Measures for the Relief of Impaired Hearing. By Dr. E. B. Dench, New York	13
4. A Blow upon the Ear Followed by Death in a Week. By Th. Heiman, of Warsaw. Translated by Charles H. May, M.D., New York	17
5. A Rare Case of Auditory Reflexes. By Prof. H. Steinbrügge, Giessen. Translated by Charles H. May, M.D., New York . . .	23
6. Two New Instruments. By Ad. Barth, of Berlin. Translated by Charles H. May, M.D., New York. (With two illustrations.) . .	26
7. The Route of Respired Air through the Nose. By R. Kayser, Breslau. Translated by Charles H. May, M.D., New York. (With illustration.)	30
8. Bony Growths in the Meatus and their Removal. By Urban Pritchard, London	45
9. Histological and Bacterial Investigations of Middle-Ear Disease in the Various Types of Diphtheria. By Prof. Moos, of Heidelberg. Translated by Dr. Jas. A. Spalding, Portland, Me. (With thirteen figures on Plates v. to xii.)	52
10. On the Local Use of Menthol and Oil of Eucalyptus in Affections of the Middle Ear. By Dr. Adolph Bronner, of Bradford, Eng. (With one wood-cut in the text.)	73
11. Report on the Progress of Otology during the Second Half of the Year 1889. By Dr. A. Hartmann, Berlin. Translated by Dr. Max Toeplitz, New York	76
III.—Pathology and Therapeutics.	
12. British Otological Notes	88
13. Reviews	92
Pathology and Therapeutics of Mouth-Breathing. By Dr. Emil Bloch. The Corrosion-Anatomy of the Osseous Labyrinth of the Human Ear. By Dr. Friedr. Siebenmann.	

NUMBER 2.

	PAGE
1. Operation for the Relief of Deafness, Noises in the Head and Ears, and Vertigo, Due to Chronic Catarrh of the Drum of the Ear. By Samuel Sexton, M.D.	95
2. Bacteriological Examinations of the Contents of the Tympanic Cavity in Cadavers of New-Born and Young Infants. By G. Gradenigo and R. Penzo. Translated by Dr. Ward A. Holden, New York	108
3. A Case of Acute Inflammation of the Middle Ear with Unusual Cerebral Symptoms. By Prof. Ad. Barth, Marburg, Germany. Translated by Dr. Ward A. Holden, New York. (With one figure in the text.)	116
4. Croupous Rhinitis. By Greville Macdonald, M.D., London	120
5. Measurements of the Height of the Cupola of the Tympanum. By C. Klingel, Berlin	125
6. A Case of Foreign Body in the Tympanum. By Dr. B. Mandelstamm, of Kiew, Russia. Translated by Dr. J. A. Spalding, Portland, Maine	128
7. Some Points Concerning the Opening of the Mastoid Process. By Th. Heiman, Warsaw. Translated by Dr. F. E. D'Oench, New York	132
8. A Contribution to the Histology of Aural Polypi. By C. Klingel, of Heidelberg. Translated by Casey A. Wood, of Chicago	142
9. Report on the Progress of Otology during the First Half of the Year 1890, By Prof. Ad. Barth, Marburg. Translated by Dr. Max Toeplitz, New York	157
I.—Normal and Pathological Anatomy, Histology, and Physiology of the Ear and Naso-Pharynx. By A. Barth, Marburg.	
II.—Pathology and Therapeutics. By A. Hartmann, Berlin.	
10. Miscellaneous Notes and News	189
11. Obituary—Drs. Henry Ferrer and Edward Bellamy	192

NUMBER 3.

1. Two Cases of Adenoma of the Sebaceous Glands of the External Ear. By Dr. C. Klingel, Berlin. Translated by Dr. Ward A. Holden, New York. (With plates i. and ii. of vol. xxi., German edition.)	193
2. Vesicles in the External Auditory Meatus. By H. L. Swain, M.D.	197
3. The Use of Electricity in Chronic Affections of the Middle Ear, with a Report of the First Ten Cases so Treated. By W. E. Baxter, M.D., Bangor, Maine	207

Contents.

v

	PAGE
4. On the Use of Benzoinol for Moistening the Cotton Artificial Membrana Tympani. By Dr. James A. Spalding, of Portland, Maine	212
5. Some Remarks on the Use of Styrene in Chronic Suppuration of the Middle Ear, especially in Perforation of Schrapnell's Membrane. By Dr. James A. Spalding, of Portland, Maine	215
6. Foreign Body Remaining Wedged in the External Auditory Canal Twenty-Four Years without Injuring the Hearing. Removal with a Hook and Syringe. By Dr. James A. Spalding, Portland, Maine	218
7. A Contribution to the Morphology of the Human Auricle. By Prof. Gradenigo, of Turin, Italy. Translated by Dr. J. A. Spalding, Portland, Maine	219
8. Diagnosis, Prognosis, and Treatment of Progressive Deafness in Chronic Non-Suppurative Inflammation of the Middle Ear. By Prof. Gradenigo, of Turin. Translated by Dr. J. A. Spalding, Portland, Maine	221
9. On the Perforations of the Membrana Flaccida Schrapnelli, with Remarks on the Formation of Cholesteatoma. By Dr. E. Schmiegelow, Copenhagen. Translated by Dr. Ward A. Holden, New York. (With six figures in the text.)	228
10. Removal of a Revolver-Bullet from the Temporal Bone by the Use of the Chisel. Recovery, with Preservation of Hearing. By Oscar Wolf, Frankfort-on-the-Maine. Translated by Charles H. May, M.D., New York	257
11. Embryo Oxyuris in the Nose. By Theodore Proskauer. Translated by Charles H. May, M.D., New York. (With three illustrations.)	261
12. Report on the Progress of Otology during the First Half of the Year 1890. By A. Hartmann, Berlin. Translated by Dr. Max Toeplitz, New York	264
II.—Pathology and Therapeutics.	
13. English Notes	286
A.—Meetings of Societies.	
B.—Miscellaneous.	
14. American Note	289

NUMBER 4.

1. Cholesteatoma of the Ear. By A. Kuhn, of Strassburg. Translated by Dr. Harry Friedenwald, of Baltimore. (With plates iii. (colored) and iv. (lithographic) of vol. xxi. of German edition.)	291
2. The Treatment of Cholesteatoma of the Middle Ear. By Prof. Fr. Bezold, of Munich. Translated by Charles H. May, M.D., New York	305

	PAGE
3. A Case of Deaf-Mutism Caused by Measles, with Post-Mortem Examination. By Dr. Holger Mygind, Copenhagen, Denmark,	310
4. Three Cases of Dumbness (Aphasia) without Deafness, Paralysis, or Mental Debility (Two Congenital and One Caused by Fright at the Age of Two Years and a Quarter); also a Case of Deaf-Mutism the Result of Fright; a Case of Congenital Deaf-Mutism that Disappeared; and a Case of Dumbness from Paralysis of the Tongue. By V. Uchermann, of Christiania, Norway. Translated by Dr. J. M. Mills, New York	321
5. A Case of Partial Development of Both Auditory Organs. By Th. Heiman, of Warsaw. Translated by Casey A. Wood, M.D., of Chicago. (With 3 wood-cuts.)	332
6. Foreign Body in Auditory Canal for Twenty Years. By Herman W. Hechelman M.D., Pittsburg, Pa.	338
7. A New Universal Double-Acting Snare. By Charles A. Bucklin, A.M., M.D. (With a wood-cut.)	340
8. Differential Diagnostic Points between Human Olfactory Epithelium and Respiratory Ciliated Epithelium. By Hermann Suchanek, Zurich. Translated and abridged by Dr. J. A. Spalding, Portland, Me.	343
9. Report on the Progress of Otology during the Second Half of the Year 1890. By A. Barth and A. Hartmann. Translated by Dr. Max Toeplitz, New York	344
I.—Anatomy.	
II.—Physiology and Physics.	
III.—Pathology and Therapeutics.	
10. First Meeting of the North German Aurists in Berlin, April 22, 1889. Reported by Adolph Barth, of Marburg. Translated by Dr. Jas. A. Spalding, Portland, Me.	371
11. Report of the Second Meeting of North German Aurists, Berlin, April 7, 1890. Translated and abridged by Dr. J. A. Spalding, Portland, Me.	376
12. Report of the Sessions of the Otological Section of the Tenth International Congress at Berlin, August 4-10, 1890. Reported by A. Barth, and translated by Dr. J. A. Spalding, Portland, Me.	380
13. Review	389
The Pathological Anatomy of the Hearing Organ. By Prof. Steinbrügge.	
14. Miscellaneous Notes	391
